

Group III: Claims 53 and 54, drawn to a process for controlling an orientation of tubular mesopores of a mesostructured material, classified in class 264.

Further, the Examiner has required selection of one of the following two patentably distinct species: (Ia) Fig. 1A and (Ib) Fig. 1B.

Applicants hereby provisionally select Group I, species Ib, claims 1-23 and 48-52, with traverse. Claims 1-23 and 48-52 read on the selected species.

Under M.P.E.P. § 821.04, Applicants request rejoinder of Group II, claims 24-47, directed to a process for forming the mesostructured material of Group I, in the event that the claims of Group I are allowed. If needed, Applicants request an opportunity to amend the claims of Group II to be commensurate with claims allowed in Group I.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

RECEIVED
